Environmental policy

Val Vert en Berry campsite

Our commitment:

Aware of environmental issues, and of the role each of us has to play in preserving the environment ; we wish to be actively involved in this approach by taking concrete steps towards protecting the environment, within the Val Vert en Berry campsite.

- **Reduce energy consumption and promote renewable energies**
 - Our electricity comes from renewable sources
 - We use exclusively energy-saving light bulbs
 - The reception building is equipped with motion detectors/sensors in order to restrict electricity consumption around it.
 - The materials of our constructions have been carefully selected for their energy efficiency.
- **Optimise water consumption :**
 - The whole site is fitted with water flow regulators for thrifty water consumption.
- **Waste management :**
 - Patrons and staff are encouraged to manage waste at best in order to recycle more effectively.
 - Green waste composting available.
- **Promote using substances as harmless to the environment as possible:**
 - Use eco-labelled products as cleaning products
- **Promote seasonal and regional products :**
 - Whether in our shop or in our restaurant, priority will be given to fresh, regional and seasonal products.
- **Communicate with our patrons, suppliers, staff and raise awareness about environmental issues :**
 - Raise awareness among our staff about eco-friendly practices ,
 - Whenever possible, we select suppliers sharing the same concerns as ours as far as environment preservation is concerned
 - We encourage our patrons to participate in these actions and share with us their « green » ideas, that are likely to enhance our approach.
